Graduate Students	4,000	9,000
PhD	2,219	5,000
Faculties	12	7
Scope	Comprehensive + Engineering	Comprehensive
Green campus		

Radboud – *Partners*

Next to student exchange with many universities, international students, PhD's and alumni,

we work together with **The Guild**,

Founded in 2016, The Guild comprises twenty one of Europe's most distinguished research-intensive universities in sixteen European countries, aiming at European cooperation (mainly research).

IN **Neurotech^{EU}** we work together with 7 other universities all over Europe (including Oxford, Karolinska Institutet and Bonn University), Western is associate partner. (see Tansu presentation)

We are very much pleased how our preferred partnership with **Glasgow University** works out and copied that model as Rob explained before. Basic is easy contact and procedures, look forward to expand to Western.
