

~850 researchers
from 35 countries

Collaborations between Donders and Brain & Mind Institutes started in 2016

Action 1: An exchange program for (early career) researchers

21 Early career researchers,
2 Master students,
3 PIs

53% from Donders to BMI
47% from BMI to Donders

60% of the beneficiaries
are women

6 joint conference publications
4 joint peer-reviewed articles

*Pieter
Medendorp*

*Brian
Corneil*

Looking forward to
the breakout session

Research Projects
Summer / Winter Schools
Topical Symposia
Partnerships in EU projects

European Universities is a new initiative of the European Commission

There are 41 European Universities in total

NeurotechEU is the only European University focused on Brain and Technology, and one of the five engineering universities

European University of Brain and Technology

Radboud University
(The Netherlands)

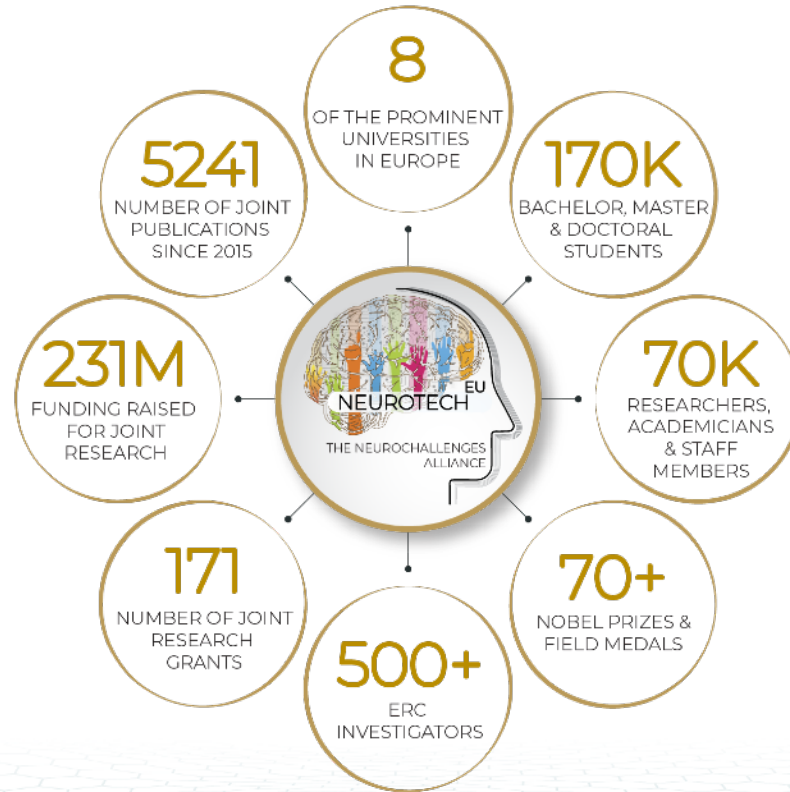

University of Miguel
Hernandez (Spain)

Karolinska Institute
(Sweden)

University of Bonn
(Germany)

Boğaziçi University
(Turkey)

University of Oxford
(The United Kingdom)

University of Medicine,
Cluj-Napoca
(Romania)

University of Debrecen
(Hungary)

and 250+ partners from industry, academy, governments and society

Radboud University
(The Netherlands)

University of Miguel
Hernandez (Spain)

Karolinska Institute
(Sweden)

University of Bonn
(Germany)

Neurochallenges in

Health & Healthcare

Learning & Education

Nutrition & Cognition

Biological & Cognitive Intelligence

Neurotechnology & Big Data

Public & Ethics

Economy & Ecology

Smart Cities

Boğaziçi University
(Turkey)

University of Oxford
(The United Kingdom)

University of Medicine,
Cluj-Napoca
(Romania)

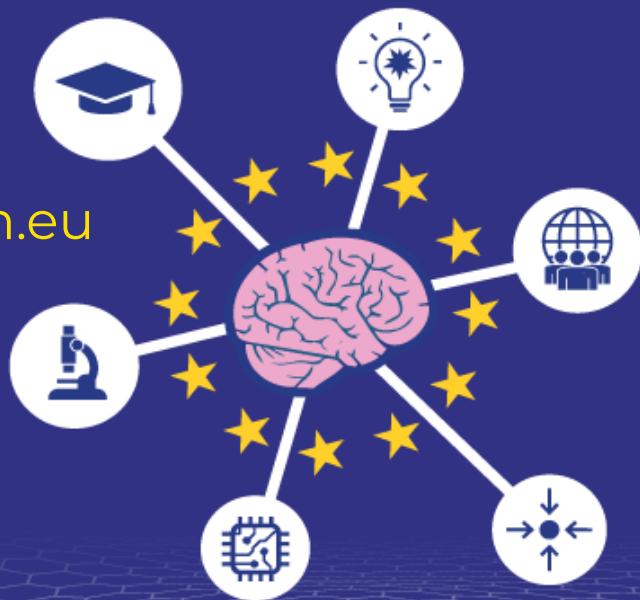

University of Debrecen
(Hungary)

**Neurochallenges are societal challenges that can be met
by research on brain and behavior, or brain-inspired technologies**
